CHOOSE COLLEGE FOR YOUR DEGREE

City and Islington, Westminster Kingsway and the College of Haringey, Enfield and North East London, offer higher education (HE) qualifications such as foundation and extended degrees, Higher Nationals (HNC/D) and HE top-up qualifications. Whether you've just finished your A Levels or vocational Level 3 or want to return to education, a college taught degree has many benefits and could be just right for you.

Career-focused degrees local to you

We work with employers and industry experts to make sure our courses provide the skills you need for your career. You'll be taught by lecturers who are experts in their field, and will gain experience of real working life through activities such as work placements, on-the-job training, networking and projects based on real workplace scenarios.

Small classes and dedicated support

With small classes, regular tutorials and a personal tutor, you'll receive all the support and guidance you need. As well as supporting your studies, we will also help you to make the right career decisions for your future.

Higher education, lower fees

Our course fees are lower than most universities (from £5,995 per year), and with small class sizes and more tutor contact, this means great value for money.

Achievable entry Requirements

Offering a range of qualifications and welcoming applicants' life and work experience as well as their grades, we make higher education an achievable option.

Recognised university qualifications

Many of our HE programmes are quality assured by partner universities. We work together to ensure our degrees meet the highest educational standards.

Friendly, relaxed environment

We're proud of our students and staff, and the warm, inclusive atmosphere they create – and they're looking forward to welcoming you too!

Access to Higher Education courses
If you're not quite ready for a degree, our one-year Access to Higher Education courses provide an ideal route in.
